VDMA India

Indo-German Bridgehead Bridgehead

DesignStudio

Preface

Preface

For many years India has been the second largest market in Asia for the German engineering industry. As an emerging country on a growth path, India offers a great potential for our industry. The demand for modernization of important Indian customer branches continues to provide the drive for further technological development in India. And, the German capital goods industry, the so called "Mittelstand", mainly consisting of small and medium sized enterprises, supports this process by offering excellent solutions.

The Indo-German business contacts have deep-seated roots providing immense possibilities for a successful Indo-German business/trade relationship in the future.

VDMA extended its services with a subsidiary office in India, located in Calcutta, and with additional regional offices in New Delhi/Noida and Mumbai. The offices support in particular those German member companies who are new to the Indian market. The VDMA team offers local assistance to the member companies as well as providing the Indian industry with useful information and contacts to the German industry.

Your VDMA!

Rajesh Nath,
Managing Director

India

Services – Complimentary for VDMA member companies

Markets

- Trends, Evaluations
- Market entry information
- Observation of legislation

Networking/Representation of interests

- Ministries, Associations
- Industry fair organizers, Trade press
- India Management Meetings
- VDMA Mechanical Engineering Summit

Marketing

- Networking with local associations and trade bodies
- Common PR, Business meetings

Trade Fairs and Events

- Collection of data
- Common presentations
- Observance of conferences

Press

- Publications in trade magazines
- Exchange with trade and economic press

Additional Services (against charges)

- Market study/Analysis
- Advertisement in quarterly newsletter/in annual publication
